

Question 5

Ans:

```
In [1]: def get_even_numbers(input_list):  
        return [num for num in input_list if num % 2 == 0]  
input_list = [1, 2, 3, 4, 5, 6, 7, 8, 9, 10]  
output_list = get_even_numbers(input_list)  
print(output_list)  
  
[2, 4, 6, 8, 10]
```
